REPORT OF SCHOOL BOARD.

To the inhabitants of the Town of Piermont, we present the following report of the schools in town for the year ending Feb. 15, 1902.

We think, with a few exceptions, the school work for the past year has been well done. The tendency in some of the schools is to cover a good many pages, not stopping to understand the different subjects thoroughly, and some studies are scarcely taken at all.

We think this can be remedied by introducing a course of study which will soon be presented.

Other towns around us are following this plan, why should we not give it a fair trial?

Our schools are not what they ought to be, nor will they be, till the parents take deeper interest, and do their part. The success of a school does not wholly rest with a teacher and the members of the board, as some seem to think. We hope for increased interest and trust at the end of another year, we may find our schools greatly improved.

Nearly all the school-houses have been repaired, and we think it the duty of the parents, as well as of the teachers, to instruct the children not to abuse the buildings in any way.

The text-books, also, should be used more carefully; some of them, which have been used but a short time, are in very bad condition.

It will be necessary to raise more money this year, if we have the thirty weeks of school which we certainly need.
